

Deborah Harris

BIO

Deborah has been managing multifaceted, high-dollar value FF&E procurement and installation projects for twenty years. Her expertise in costing, sourcing, product specifications, scheduling and installation has contributed to the successful completion of four, five and six-star hotel projects throughout the United States and abroad.

Deborah began her project management career in 1986 with The Leonard Parker Company of Miami, Florida. Soon after joining Leonard Parker she completed her first highly complex project, the 1,000-plus room Crystal Palace Hotel and Casino in Nassau, Bahamas, with an FF&E budget of over \$20 million. Also included at the property were a dinner theater and multiple themed restaurants.

Since then, Deborah has worked on nearly fifty projects, many of them for the world's largest and well-known hotel companies. In 1998 she spent nearly a year based in Amsterdam overseeing product sourcing and delivery logistics for twenty Marriott hotel renovations.

Deborah founded Paigebrook Hospitality, Inc. in 2004, which provides FF&E solutions, including interior design and freight logistics, to hotel developers and owners.

Deborah is a graduate of New York University with a Bachelor of Arts degree in Political Science and a graduate of DeVry University with a Bachelor of Science degree in Information Technology. She resides in Denver, Colorado.
